Background

One might easily get the impression that the GMP world is continuously turning faster. Laws, regulations, and especially GMP requirements worldwide are constantly renewed, modernized and adapted against each other. To provide you with an overview what is going on in the area of microbiology and hygiene is thus the goal of this webinar.

Educational Objectives

This webinar aims at giving you a comprehensive but still compact overview about the many innovations in the GMP area of microbiology and hygiene - those already realized and those planned:

- EU and US Directives and EU-GMP Guide
- EU and US Pharmacopeial Chapters
- News from FDA and other Agencies
- Outlook what is coming up

Target Audience

The webinar targets executives and staff of pharmaceutical microbiological laboratories and contract laboratories as well as responsible regulators and inspectors. Additionally, it will be of interest for responsible persons from QC and QA who must evaluate and estimate microbiological data..
