

Good  
Manufacturing  
Practices

Incl. 2 workshops:

- Entering the clean area
- Establishing an environmental monitoring program and handling of failures in microbiology

# GMP for Beginners in Sterile Manufacturing

10-11 November 2015, Berlin, Germany

## SPEAKERS:

Colin Booth  
*Thermo Fisher Scientific*

Michael Grosser  
*Novartis Pharma Stein*

Wolf-Dieter Wanner

Dr Björn Wiese  
*Zimmer*

## LEARNING OBJECTIVES:

- Clean Rooms and Barrier Systems
- Microbiological Basics
- Training Requirements
- Cleaning and Disinfection
- Hygiene
- Sterilisation Processes
- Environmental Monitoring
- Media Fills
- Handling Failures – CAPA
- Inspections – Audits - Observations

# GMP for Beginners in Sterile Manufacturing

10-11 November 2015, Berlin, Germany

## Objectives

---

The course is designed for people working in sterile manufacturing to get basic knowledge of GMP.

- You get to know the most important pharmaceutical regulations for sterile manufacturing and their importance,
- You get a basic overview of general GMP requirements and specific requirements in sterile manufacturing and
- You become familiar with the most important basic processes in sterile pharmaceutical production

## Background

---

Knowing and applying the GMP regulations is one of the key elements in the manufacture of medicinal products and medical devices. Particularly in the manufacture of sterile medicinal products, employees have to comply with extensive requirements. Against this background, employees have to know the GMP requirements and must know how to use them in practice.

The question is: how can employees implement in their daily work regulations which are usually formulated in a very general manner?

The aim of the course is to help answer this question and enable the concrete transfer of regulatory requirements into practice. Where are the main difficulties and how can they be solved pragmatically? The course will present elements and situations which employees are regularly confronted with, like for example:

- Correct cleaning / disinfection
- Behaviour in clean rooms
- Correctly passing into the clean rooms
- Environmental Monitoring
- Performance of Media Fills

## Target Group

---

The course is directed to staff from the healthcare industry having no or little experience with the current GMP requirements for sterile manufacturing. This includes both employees who, after their vocational training, enter the pharmaceutical industry and experienced colleagues who work for the first time in sterile manufacturing areas. Suppliers who have to understand the quality requirements of their customers should also attend this course.

## Moderator

---

Colin Booth

## Programme

---

### Introduction – What is specific for sterile manufacturing?

- What does sterile actually mean?
- Controlling raw material supply
- Sterilisation
- Sterile Manufacturing Facilities
- Process simulations
- Microbiological control

### Regulations for sterile manufacturing

- Overview of regulation hierarchy
- Regulations on Aseptic Processing
- Applicable ISO standards

### Microbiological basics

- Characteristics of microorganisms
- Microbial growth
- Microbial identification techniques
- Detection methods and their limitations

### Clean rooms and Barrier Systems

- Differences in the technology
- Decontamination vs. disinfection
- Validation aspects
- Environmental monitoring
- Risk considerations

### Specific training requirements for sterile manufacturing

- Basics of microbiology
- Contamination sources and transfer
- Clean rooms
- Hygienic behaviour

### Cleaning and disinfection

- Definitions
- Requirements - results – parameters
- Types of detergents and disinfectants
- Microbiological efficacy
- Compatibility of materials
- Types of application
- Surface wetting

### Hygiene

- General definitions
- Purpose and function to pharmaceutical manufacturing with reference to personnel, surfaces, equipment
- Diversity of hazard – hazard analysis
- Clean room conception
- Gowning procedures
- Decontamination procedures

### Workshop: Entering the clean area

- Requirements
- How to meet the criteria - practice

*Entering a clean area is a very critical step to fulfil the GMP requirements. Employees must be trained and qualified and the gowning process must be validated. Attendees will learn different procedures and discuss the advantages and disadvantages.*

## Sterilisation processes

- Controlling bioburden / pyroburden
- Autoclaving
- Filtration
- Dry heat
- Gamma irradiation
- Ethylene Oxide

## Involvement of the microbiological lab

- Counting micro-organisms
- Identifying micro-organisms
- Process validation
- Validating the sterility test
- Raw material testing strategy
- Trouble shooting

## Environmental monitoring

- Regulatory requirements
- Content and establishing of an environmental monitoring program
- Requirements concerning media and media suppliers
- Documentation and trending

## Media Fill

- Regulatory requirements
- Microbiological media types
- Process simulation contamination
- Sample incubation
- Laboratory work
- Formal report

## Handling failures in sterile manufacturing

- Historic background
- Regulatory requirements
- Example for a non-conformity system
- Case studies

### Workshop Establishing an environmental monitoring program and handling of failures in microbiology.

*Some practical examples from a pharmaceutical company will be demonstrated and discussed with the attendees.*

## Inspections / Audits / Observations

- Preparing for a formal inspection
- Managing an FDA audit of sterile manufacturing
- Internal audit program
- Real world observations
- Your OOS and OOT process

## Social Event

On Tuesday evening you are cordially invited to a social event. This is an excellent opportunity to share your experiences with colleagues from other companies in a relaxed atmosphere.

## Speakers

### Colin Booth

*Thermo Fisher Scientific, United Kingdom*

Colin Booth was the manager of Pharmaceutical Microbiology for Glaxo Wellcome Research and Development based in the UK where he was responsible for all the microbiology associated with the development of all Glaxo Wellcome new products. In 2002 he joined Oxoid Limited, now Thermo Fisher Scientific, where he is Vice President Science and Technology. He is a member of PDA, a group dedicated to building interfaces with regulatory colleagues across Europe.

### Michael Grosser

*Novartis Pharma Stein AG, Schweiz*

Michael Grosser studied Microbiology at the Albert Ludwig University in Freiburg/Breisgau. He then worked for 14 years as Head of Microbiology at UFAG Laboratorien AG, Eurofins Scientific AG and GP Grenzach Produktions GmbH (Bayer Health Care). Since 2009 he is working for Novartis Pharma Stein AG as Senior QA-Specialist, responsible for environmental monitoring in the sterile plant, QA oversight, validation of new cleanrooms or isolators, deviation management and microbiological product release.

### Wolf-Dieter Wanner

*Augsburg, Germany*

Studied pharmacy at the University of Munich. He started working in a free pharmacy and later joined Henkel KGaA in Düsseldorf to establish a German decontamination business relating to the industry. At Ecolab Deutschland GmbH as a sales manager he integrated the German clean room business with Adams Healthcare and Shield Medicare into an international contamination control team focused upon pharmaceutical aseptic manufacturing. Since 2011 he works as a freelancer consultant.

### Dr Björn Wiese

*Zimmer GmbH, Winterthur, Switzerland*

From 1996 to 2000 Björn Wiese worked as project manager in R&D of Danisco Ingredients, Niebüll, Germany, and developed start up cultures. Since November 2000, he had been head of the microbiology department of Hameln Pharmaceuticals, Hameln, Germany. From 2005 - 2010 Björn worked at the pharmaceutical production site of Cilag in Schaffhausen, Switzerland. 2011 he joined Zimmer GmbH as Associate Director Sterilisation Technology and Analytical Testing.

### General terms and conditions

If you cannot attend the conference you have two options:

1. We are happy to welcome a substitute colleague at any time.

2. If you have to cancel entirely we must charge the following processing fees: Cancellation

- until 2 weeks prior to the conference: 10 %

- until 1 weeks prior to the conference: 50 %

- within 1 week prior to the conference: 100 %.

CONCEPT HEIDELBERG reserves the right to change the materials, in-

structions, or speakers without notice or to cancel an event. If the event

must be cancelled, registrants will be notified as soon as possible and

will receive a full refund of fees paid. CONCEPT HEIDELBERG will not

be responsible for discount airfare penalties or other costs incurred

due to a cancellation.

**Terms of payment:** Payable without deduc-

tions within 10 days after receipt of invoice.

**Important:** This is a binding registration and above fees are due in

case of cancellation or non-appearance. If you cannot take part,

you have to inform us in writing. The cancellation fee will then be

calculated according to the point of time at which we receive your

message. In case you do not appear at the event without having

informed us, you will have to pay the full registration fee, even if

you have not made the payment yet. Only after we have received

your payment, you are entitled to participate in the conference

(receipt of payment will not be confirmed)!. (As of January 2012)

**Privacy Policy:** By registering for this event, I accept the processing

of my Personal Data. Concept Heidelberg will use my data for the

processing of this order, for which I hereby declare to agree that my

personal data is stored and processed. Concept Heidelberg will only

send me information in relation with this order or similar ones. My

personal data will not be disclosed to third parties (see also the pri-

vacancy policy at [http://www.gmp-compliance.org/eca\\_privacy.html](http://www.gmp-compliance.org/eca_privacy.html)).

I note that I can ask for the modification, correction or deletion of my

data at any time via the contact form on this website.

### Date

Tuesday, 10 November 2015, 09.30 h – 17.30 h

(Registration and coffee 09.00 h – 09.30 h)

Wednesday, 11 November 2015, 09.00 h – 16.15 h

### Venue

Steigenberger Hotel am Kanzleramt

Ella-Trebe-Straße 5

10557 Berlin, Germany

Phone +49(0)30 921 0257 0

Fax +49(0)30 921 0257 99

### Fees (per delegate plus VAT)

ECA Members € 1,390

APIC Members € 1,490

Non-ECA Members € 1,590

EU GMP Inspectorates € 795

The conference fee is payable in advance after receipt of invoice and includes conference documentation, dinner on the first day, lunch on both days and all refreshments. VAT is reclaimable.

### Accommodation

CONCEPT HEIDELBERG has reserved a limited number of rooms in the conference hotels. You will receive a room reservation form when you have registered for the event. Reservation should be made directly with the hotel. Early reservation is recommended.

### Registration

Via the attached reservation form, by e-mail or by fax message. Or you register online at [www.gmp-compliance.org](http://www.gmp-compliance.org).

### Conference Language

The official conference language will be English.

### Organisation and Contact

ECA has entrusted Concept Heidelberg with the organisation of this event.
