Quality Control of Raw Materials (APIs and Excipients)

Actual Challenges :

- Risk Assessment for Representative Sampling
- New Requirements for Excipients

SPEAKERS:

Emerich Grassinger
*Aenova Group - Haupt
Pharma Wülfring*

Armin Groh
Takeda

Dr Reto Theiß
Merck

Dr Thomas Storm
Novartis Pharma

Testing and Sampling of Incoming Active
Pharmaceutical Ingredients (APIs) and Excipients

6 – 7 February 2018, Hamburg, Germany

PROGRAMME:

- Regulatory Requirements for APIs and Excipients
- Current GMP Requirements for APIs, Excipients and Drug Products
- Laboratory Organisation
- Pharmacopoeias
- Sampling of Incoming APIs and Excipients
- Reduced Testing of Supplied APIs and Excipients
- Analytical Methods
- NIR (Near InfraRed Spectroscopy) for an Efficient Control of Raw Materials

This education course is recognised for the ECA GMP Certification Programme „Certified Quality Control Manager“. Please find details at www.gmp-certification.eu

Quality Control of Raw Materials (APIs and Excipients)

6 – 7 February 2018, Hamburg, Germany

Objectives

Testing active pharmaceutical ingredients and excipients is one of the main tasks of the quality control units in the pharmaceutical industry. It must be ensured that the necessary tests are conducted on the incoming goods and that the starting materials are released only after their quality was judged as satisfactory. This GMP Education Course about the incoming goods control of APIs and excipients will give you a comprehensive overview of the specific tasks and questions of the „raw materials lab“ and show you real-life solutions and answers.

This course will deal among others with the following questions:

- Who is responsible for the release or rejection of starting materials?
- How can the incoming goods lab be organised efficiently?
- Which SOPs are necessary?
- In which cases can test results be taken over from the supplier's certificate of analysis?
- Do all test items of a pharmacopoeial monograph have to be analysed?
- Are the pharmacopoeial monographs similar, or must different tests be conducted for Ph.Eur., USP and JP?
- Can a pharmacopoeial test method be replaced by an alternative test method? Does this require a variation application?
- How can the EU Guideline 2015/C 95/02 on risk assessment for excipients be implemented?

It is the aim of this GMP Education Course to give answers to these and many other important questions relating to the testing of APIs and excipients and to serve as a forum for an intensive experience exchange.

Target Group

This Education Course is directed at all those employees from quality control units in the pharmaceutical industry (including heads of quality control and laboratory managers) who are competent or responsible for sampling, testing and release of the starting materials used (= APIs and excipients).

This course is also of interest to personnel from quality assurance and to those employees from API and excipient manufacturers who want to inform themselves about the requirements of the pharmaceutical industry on the testing of these starting materials.

Programme

Regulatory Requirements for APIs and Excipients

- Definition of APIs and excipients
 - EU Requirements
 - FDA Requirements, e.g. FDA Draft Guidance “Drug Product”
 - Common Technical Document (CTD)
 - Certification Procedures:
 - EDQM Certificate of Suitability
 - Active Substance Master File
 - US Drug Master File
 - Quality Standard: How to discern a good starting material from a bad one?
 - New requirements for excipients
- DR RETO THEISS, Merck KGaA

Current GMP Requirements for APIs, Excipients and Drug Products

- Relevant ICH guidelines
 - EU regulations for Drug Products and API
 - GMP for excipients – current expectations
 - IPEC (International Pharmaceutical Excipients Council) Guideline for excipients
 - Upcoming EU GMP regulation for excipients
 - GMP aspects of supplier/manufacture qualification
 - New challenge: risk assessment for excipients
- DR THOMAS STORM, Novartis Pharma AG

Laboratory Organisation

- Role of the raw materials laboratory within the pharmaceutical supply chain
- Optimization of the analytical laboratory with respect to costs, time and resources (economic order size, costs of analysis vs stock keeping costs, involvement of RM suppliers in the SC)

EMERICH GRASSINGER, Aenova Group - Haupt Pharma Wülfig GmbH

Pharmacopoeias

- Regulatory background
- Pharmacopoeial institutions – Ph.Eur., USP/NF, JP
- CEPs
- Implementation of pharmacopoeial monographs in your laboratory
- Multi-compendial testing
- Validation of pharmacopoeial testing methods
- USP General Chapter <1226> Verification of Compendial Methods

DR THOMAS STORM, Novartis Pharma AG

Sampling of Incoming APIs and Excipients

- Regulatory requirements
- Reduced Testing
- Sampling plans
- Training
- GMP-compliant documentation of sampling operations
- Practical examples

EMERICH GRASSINGER, Aenova Group - Haupt Pharma Wülfig GmbH

WORKSHOP I

Sampling

- Examples for generating sample procedures
- How to deal with the unexpected?
- How to deal with deviations on the delivery?

Moderator: **EMERICH GRASSINGER**,
Aenova Group - Haupt Pharma Wülfing GmbH

Reduced Testing of Supplied APIs and Excipients

- What guidance is available on reduced QC testing?
- EU and FDA expectations?
- Supplier qualification as a prerequisite
- Other information required before you start reducing
- Can APIs and excipients be covered within the same approach?
- Who is in the driver seat, who must be involved?
- Practical execution

DR RETO THEISS, *Merck KGaA*

WORKSHOP II

Reduced Testing

Apart from any guidance, it is still much up to the manufacturer to decide which APIs and which excipients might be subject of a reduced testing procedure. Since the quality of the substance has to be assured without compromise, multiple factors must be considered before the full testing of every single batch can be reduced. It is the aim of this workshop to exchange information about different approaches and to discuss their advantages and disadvantages respectively considering the actual guidance as well as their practicability.

Moderator: **DR RETO THEISS**, *Merck*

Analytical Methods

- Use and validation of non-compendial methods
- How to proof comparability?
- Advantages of instrumental methods versus visual methods
- Handling of deviations (Out-of-Specification results and complaints)
- Measurement system analysis
- Documentation
- Retests

EMERICH GRASSINGER, *Aenova Group - Haupt Pharma Wülfing GmbH*

NIR (Near InfraRed Spectroscopy) for an Efficient Control of Raw Materials

- A short introduction to NIR Spectroscopy
- NIR as a pharmacopoeial monograph
- NIR for single container identification
- Costs vs. benefit
- NIR vs. ATR vs. Raman

ARMIN GROH, *Takeda GmbH*

Speakers

Emerich Grassinger

Haupt Pharma Wülfing GmbH, Member of the Aenova Group, Germany

Emerich Grassinger works since 1995 in various positions for the pharmaceutical industry within QA and QC. 2002-2010 he headed several labs within Boehringer Ingelheim and was there also responsible for the Raw Material laboratory in which the testing and release of the APIs and Excipients was carried out. He led several improvement projects throughout the supply chain involving the raw material releasing process. 2010 he joined Haupt Pharma Wülfing, where he is responsible for Quality Control, including the raw material laboratory and the sampling of incoming goods.

Armin Groh

Takeda GmbH, Singen, Germany

Armin Groh works as head of laboratory in the QC unit of Takeda in Singen, Germany. He is responsible for various analytical methods like HPLC, GC, FT-IR and FT-NIR, titrations, and other pharmacopoeial methods.

Dr Reto Theiss

Merck KGaA, Darmstadt, Germany

Dr Reto Theiss started his career in the pharmaceutical industry in 1999. Since 2002 he is with Merck KGaA in Darmstadt, Germany, acting as a Qualified Person where he was initially responsible for releasing products of the generic branch to the market. Since 2005 his duties include the QA supervision of solid dosage forms during the whole production chain. Furthermore, he is performing supplier and CMO audits as part of the supplier qualification.

Dr Thomas Storm

Novartis Pharma AG, Basel, Switzerland

Thomas Storm studied Chemistry and Physics, PhD in Environmental Technology, TU Berlin. Worked since 2001 as Head of Laboratory in Analytical Development at Schering AG / Bayer Schering Pharma AG, Berlin. Since 2008 at Novartis Pharma AG in Basel in Inhalation Technical Development. Work areas included quality control of excipients, supplier qualification, quality control for development candidates, electronic raw data archival, HPLC, HPLC/MS, CDS, and inhalation product development.

Social Event

At the end of the first course day you are cordially invited to a social event. This is an excellent opportunity to share your experiences with colleagues from other companies in a relaxed atmosphere.

If the bill-to-address deviates from the specifications on the right, please fill out here:

GERMANY

General terms and conditions

If you cannot attend the conference you have two options:

1. We are happy to welcome a substitute colleague at any time.
2. If you have to cancel entirely we must charge the following processing fees: Cancellation
- until 2 weeks prior to the conference 10 %
- until 1 week prior to the conference 50 %
- within 1 week prior to the conference 100 %

CONCEPT HEIDELBERG reserves the right to change the materials, in-

structors, or speakers without notice or to cancel an event. If the event must be cancelled, registrants will be notified as soon as possible and will receive a full refund of fees paid. CONCEPT HEIDELBERG will not be responsible for discount airfare penalties or other costs incurred due to a cancellation.

Terms of payment: Payable without deduction within 10 days after receipt of invoice.

Important: This is a binding registration and above fees are due in case of cancellation or non-appearance. If you cannot take part,

you have to inform us in writing. The cancellation fee will then be calculated according to the point of time at which we receive your message. In case you do not appear at the event without having informed us, you will have to pay the full registration fee, even if you have not made the payment yet. Only after we have received your payment, you are entitled to participate in the conference (receipt of payment will not be confirmed!) (As of January 2012) German law shall apply. Court of jurisdiction is Heidelberg.

Privacy Policy: By registering for this event, I accept the processing of my Personal Data. Concept Heidelberg will use my data for the processing of this order, for which I hereby declare to agree that my personal data is stored and processed. Concept Heidelberg will only send me information in relation with this order or similar ones. My personal data will not be disclosed to third parties (see also the privacy policy at http://www.gmp-compliance.org/eca_privacy.html). I note that I can ask for the modification, correction or deletion of my data at any time via the contact form on this website.

Date

Tuesday, 6 February 2018, 9.00 h – 18.00 h
(Registration and coffee 8.30 h – 9.00 h)
Wednesday, 7 February 2018, 8.30 h – 16.00 h

Venue

Barceló Hotel Hamburg
Ferdinandstrasse 15
20095 Hamburg, Germany
Phone +49 40 22 63 62 0
Email hamburg@barcelo.com

Fees (per delegate plus VAT)

ECA Members € 1,490
APIC Members € 1,590
Non-ECA Members € 1,690
EU GMP Inspectorates € 845

The conference fee is payable in advance after receipt of invoice and includes conference documentation, dinner on the first day, lunch on both days and all refreshments. VAT is reclaimable.

Accommodation

Concept Heidelberg has reserved a limited number of rooms in the conference hotel. You will receive a room reservation form/POG with all further information when you have registered for the event. Reservation should be made directly with the hotel. Early reservation is recommended.

Registration

Via the attached reservation form, by e-mail or by fax message. Or you register online at www.gmp-compliance.org.

Conference language

The official conference language will be English.

Organisation and Contact

ECA has entrusted Concept Heidelberg with the organisation of this event.
