

Participate in 2 Workshops:

- Sampling
- Reduced Testing

Quality Control of Raw Materials

Testing and Sampling of Incoming Active
Pharmaceutical Ingredients (APIs) and Excipients

15 – 16 March 2012, Berlin, Germany

SPEAKERS:

Emerich Grassinger
Haupt Pharma Wülfig

Armin Groh
Nycomed

Dr Reto Theiß
Merck

Dr Thomas Storm
Novartis Pharma

PROGRAMME:

- Regulatory Requirements for APIs and Excipients
- Current GMP Requirements for APIs, Excipients and Drug Products
- Laboratory Organisation
- Pharmacopoeias
- Sampling of Incoming APIs and Excipients
- Reduced Testing of Supplied APIs and Excipients
- Analytical Methods
- NIR (Near InfraRed Spectroscopy) for an Efficient Control of Raw Materials

Quality Control of Raw Materials

15 – 16 March 2012, Berlin, Germany

Objectives

Testing active pharmaceutical ingredients and excipients is one of the main tasks of the quality control units in the pharmaceutical industry. It must be ensured that the necessary tests are conducted on the incoming goods and that the starting materials are released only after their quality was judged as satisfactory. This GMP Education Course about the incoming goods control of APIs and excipients will give you a comprehensive overview of the specific tasks and questions of the „raw materials lab“ and show you real-life solutions and answers.

This course will deal among others with the following questions:

- Who is responsible for the release or rejection of starting materials?
- How can the incoming goods lab be organised efficiently?
- Which SOPs are necessary?
- In which cases can test results be taken over from the supplier's certificate of analysis?
- Do all test items of a pharmacopoeial monograph have to be analysed?
- Are the pharmacopoeial monographs similar, or must different tests be conducted for PhEur, USP and JP?
- Can a pharmacopoeial test method be replaced by an alternative test method? Does this require a variation application?

It is the aim of this GMP Education Course to give answers to these and many other important questions relating to the testing of APIs and excipients and to serve as a forum for an intensive experience exchange.

Target Group

This Education Course is directed at all those employees from quality control units in the pharmaceutical industry (including heads of quality control and laboratory managers) who are competent or responsible for sampling, testing and release of the starting materials used (= APIs and excipients).

This course is also of interest to personnel from quality assurance and to those employees from API and excipient manufacturers who want to inform themselves about the requirements of the pharmaceutical industry on the testing of these starting materials.

Programme

Regulatory Requirements for APIs and Excipients

- Definition of APIs and excipients
- EU Requirements
- FDA Requirements, e.g. FDA Draft Guidance “Drug Product”
- Common Technical Document (CTD)
- Certification Procedures:
 - EDQM Certificate of Suitability
 - Active Substance Master File
 - US - Drug Master File
- Quality Standard: How to discern a good starting material from a bad one?

DR RETO THEISS, Merck KGaA

Current GMP Requirements for APIs, Excipients and Drug Products

- Relevant ICH guidelines
- EU regulations for Drug Products and API
- GMP for excipients – current expectations
- IPEC (International Pharmaceutical Excipients Council) Guideline for excipients
- Upcoming EU GMP regulation for excipients
- GMP aspects of supplier/manufacture qualification

DR THOMAS STORM, Novartis Pharma AG

Laboratory Organisation

- Role of the raw materials laboratory within the pharmaceutical supply chain
- Optimization of the analytical laboratory with respect to costs, time and resources (economic order size, costs of analysis vs stock keeping costs, involvement of RM suppliers in the SC)

EMERICH GRASSINGER, Haupt Pharma Wülfig GmbH

Pharmacopoeias

- Regulatory background
- Pharmacopoeial institutions – Ph.Eur., USP/NF, JP
- CEPs
- Implementation of pharmacopoeial monographs in your laboratory
- Multi-compendial testing
- Validation of pharmacopoeial testing methods
- New USP General Chapter <1226> Verification of Compendial Methods

DR THOMAS STORM, Novartis Pharma AG

Sampling of Incoming APIs and Excipients

- Regulatory requirements
- Are the requirements the same for active and excipients?
- Sampling plans
- Training
- GMP-compliant documentation of sampling operations
- Practical examples

EMERICH GRASSINGER, Haupt Pharma Wülfig GmbH

WORKSHOP I

Sampling

- Examples for generating sample procedures
- How to deal with the unexpected?
- How to deal with deviations on the delivery like incorrect temperature control, stacked up pallets, etc.?

Moderator:

EMERICH GRASSINGER, *Haupt Pharma Wülfing GmbH*

Reduced Testing of Supplied APIs and Excipients

- What guidance is available on reduced QC testing?
- EU and FDA expectations?
- Supplier qualification as a prerequisite
- Other information required before you start reducing
- Can APIs and excipients be covered within the same approach?
- Who is in the driver seat, who must be involved?
- Practical execution

DR RETO THEISS, *Merck KGaA*

WORKSHOP II

Reduced Testing

Apart from any guidance, it is still much up to the manufacturer to decide which APIs and which excipients might be subject of a reduced testing procedure. Since the quality of the substance has to be assured without compromise, multiple factors must be considered before the full testing of every single batch can be reduced. It is the aim of this workshop to exchange information about different approaches and to discuss their advantages and disadvantages respectively considering the actual guidance as well as their practicability.

Moderator: **DR RETO THEISS**, *Merck*

Analytical Methods

- Use and validation of non-compendial methods
- How to proof comparability?
- Advantages of instrumental methods versus visual methods
- Handling of deviations (Out-of-Specification results and complaints)
- CAPA process
- Measurement system analysis
- Documentation
- Retests

EMERICH GRASSINGER, *Haupt Pharma Wülfing GmbH*

NIR (Near InfraRed Spectroscopy) for an Efficient Control of Raw Materials

- A short introduction to NIR Spectroscopy
- NIR as a pharmacopoeial monograph
- NIR for single container identification
- Costs vs. benefit
- NIR vs. ATR

ARMIN GROH, *Nycomed GmbH*

Speakers

Emerich Grassinger

Haupt Pharma Wülfing GmbH, Germany

Emerich Grassinger works since 1995 in various positions for the pharmaceutical industry.

2002-2010 he headed several labs within Boehringer Ingelheim and was there also responsible for the Raw Material laboratory in which the testing and release of the APIs and Excipients was carried out. He led several improvement projects throughout the supply chain involving the raw material releasing process. 2010 he joined Haupt Pharma Wülfing, where he is responsible for Quality Control, including the raw material laboratory and the sampling of incoming goods.

Armin Groh

Nycomed GmbH, Singen, Germany

Armin Groh works as head of laboratory in the QC unit of Nycomed in Singen, Germany. He is responsible for various analytical methods like HPLC, GC, FT-IR and FT-NIR, titrations, and other pharmacopoeial methods.

Dr Reto Theiß

Merck KGaA, Darmstadt, Germany

Dr. Reto Theiß started in 1997 at Temmler Pharma in Marburg. In 1999 he became deputy Head of Temmler's Quality Control department. In 2002 he changed to Merck in Darmstadt serving as QP responsible for releasing products of the generic branch for the market. Since January 2005 his duties include the QA supervision of solid dosage forms during the whole production chain.

Dr Thomas Storm

Novartis Pharma AG, Basel, Switzerland

Thomas Storm studied Chemistry and Physics, PhD in Environmental Technology, TU Berlin. Worked since 2001 as Head of Laboratory in Analytical Development at Schering AG / Bayer Schering Pharma AG, Berlin. Joined Novartis in 2008 as Head of Laboratory in Inhalation Development and Technology. Work areas included quality control of excipients, introduction of novel excipients, supplier qualification, quality control for development candidates, electronic raw data archival, HPLC, HPLC/MS, CDS, and, recently, inhalation specific analytics.

Social Event

At the end of the first course day you are cordially invited to a social event. This is an excellent opportunity to share your experiences with colleagues from other companies in a relaxed atmosphere.

If the bill-to-address deviates from the specifications on the right, please fill out here:

General terms and conditions

If you cannot attend the conference you have two options:

1. We are happy to welcome a substitute colleague at any time.

2. If you have to cancel entirely we must charge the following processing fees: Cancellation

▪ until 2 weeks prior to the conference 10 %

▪ until 1 week prior to the conference 50 %

▪ within 1 week prior to the conference 100 %.

CONCEPT HEIDELBERG reserves the right to change the materials, instructors, or speakers

without notice or to cancel an event. If the event must be cancelled, registrants will be noti-

fied as soon as possible and will receive a full refund of fees paid. CONCEPT HEIDELBERG will

not be responsible for discount airfare penalties or other costs incurred due to a cancellation.

Terms of payment: Payable without deductions within 10 days after receipt of invoice.

Important: This is a binding registration and above fees are due in case of cancellation or

non-appearance. If you cannot take part, you have to inform us in writing. The cancellation

fee will then be calculated according to the point of time at which we receive your message.

In case you do not appear at the event without having informed us, you will have to pay the

full registration fee, even if you have not made the payment yet. Only after we have received

your payment, you are entitled to participate in the conference (receipt of payment will not

be confirmed).

Easy Registration

Internet:
www.gmp-compliance.org

Date

Thursday, 15 March 2012, 9.00 h – 18.00 h
(Registration and coffee 8.30 h – 9.00 h)
Friday, 16 March 2012, 8.30 h – 16.00 h

Venue

Steigenberger Hotel Berlin
Los-Angeles-Platz 1
10789 Berlin, Germany
Phone +49 (0)30 2127 - 0
Fax +49(0)30 2127 - 117

Fees

ECA Members € 1,490.- per delegate plus VAT
APIC Members € 1,590.- per delegate plus VAT (does not include ECA membership)
Non-ECA Members € 1,690.- per delegate plus VAT
EU GMP Inspectorates € 845.- per delegate plus VAT
The conference fee is payable in advance after receipt of invoice and includes conference documentation, dinner on the first day, lunch on both days and all refreshments. VAT is reclaimable.

Accommodation

CONCEPT has reserved a limited number of rooms in the conference hotel. You will receive a room reservation form when you have registered for the event. Please use this form for your room reservation or be sure to mention “ECA 7174” to receive the specially negotiated rate (€ 125,- per night incl. breakfast) for the duration of your stay. Reservation should be made directly with the hotel not later than 15 February 2012. Early reservation is recommended.

Registration

Via the attached reservation form, by e-mail or by fax message. Or you register online at www.gmp-compliance.org.

Conference language

The official conference language will be English.
