Free brochure **"Validation of Analytical Test Procedures**" (1<sup>st</sup> English Edition 2009)

# Validation of Analytical Test Procedures and Measurement Uncertainty

Qualification and Validation in an uncertain analytical world – a holistic approach

### 24 - 26 April 2012, Heidelberg, Germany

#### SPEAKERS:

Dr Christopher Burgess Burgess Analytical Consultancy, UK

Trevor Coomber Pharmaceutical Development Consultant, UK

Dr Xaver Schratt LAT GmbH Dr . Tittel, Germany

#### LEARNING OBJECTIVES:

- Analytical Instrument Qualification
- Measurement Uncertainty and its impact on analytical methods validation
- Practical Determination of Validation Characteristics
- Regulatory requirements
- Statistical Aspects of Analytical Methods Validation
- Documentation of Analytical Validation
- Error budgets and reportable values
- Transfer of Analytical Test Procedures

### Validation of Analytical Test Procedures and Measurement Uncertainty

#### 24 - 26 April 2012, Heidelberg, Germany

#### Learning Objectives

The objectives of this Education Course are

- to offer practical solutions for determining the validation characteristics
- to learn how to deal with measurement uncertainty and to understand its impact on analytical methods validation
- to discuss the scope of validation necessary to obtain approval by the Registration Authorities (EMA, FDA, MHRA, etc.)
- to become familiar with the statistical parameters to be applied
- to understand the qualification of laboratory equipment as a precondition of reliable analytical testing
- to outline the documentation (SOPs, Validation Protocols and Reports, etc.) which you should have in your lab.

In order to improve the understanding and practical application of the contents of the lectures, workshops will be part of the training course.

#### Background

Guideline Q2(R1) lists all characteristics to be considered during validation and describes the method of determining the various validation characteristics. Reliable analytical results do not only require validated test procedures but also the use of analytical equipment qualified for its intended purpose. In order to obtain the FDA investigator's approval, the qualification of all critical laboratory equipment should be performed in standard IQ/OQ/ PQ format. Furthermore, measurement uncertainty is of key importance in analytical instruments qualification as well as in analytical methods validation and transfer. Therefore it is absolutely essential that measurement uncertainty is well understood by everybody who is responsible for generating and evaluating analytical results in GMP controlled laboratories.

#### **Target Audience**

This interactive Education Course will be of particular interest to Laboratory Managers, Supervisors and Analysts in pharmaceutical quality control departments who have responsibility for the validation of analytical test procedures. Furthermore, this Course is designed for personnel from Quality Assurance, Regulatory Affairs and Contract Laboratories.

#### Moderator

Dr Christopher Burgess

# Free brochure "Validation of Analytical Test Procedures" (1<sup>st</sup> English Edition 2009)

Each participant gets a brochure containing over 200 pages of examples and validation protocols on analytical methods validation for free.

#### Programme

#### Validation in Context

- Components of data quality
- Integrated Approach to Qualification and Validation
- Conclusion

#### **Basics of Measurement Uncertainty**

- Why is measurement uncertainty important?
- Relationship between uncertainty and confidence
- Uncertainty of measurement
- What is a measurand
- Error sources in analysis and testing

#### **Analytical Instrument Qualification**

- Guidance
- Validation Master Plan
- Definition of DQ, IQ, OQ and PQ
- Examples of protocols and documents
- Change Control
- Risk assessment

### Measurement Uncertainty in Calibration and Qualification of Analytical Instruments

- Qualification, Calibration & Validation
- Measurement uncertainty
- Propagation of Errors
- Measurement uncertainty of a CRM
- Detection and quantitation limits
- Noise & drift
- Statistical aspects

#### **Regulatory Requirements**

- Validation definitions
- Analytical validation according to USP
- ICH Guideline 'Validation of Analytical Procedures: Text and Methodology Q2(R1)
- CDER Reviewer Guidance: Validation of Chromatographic Methods

#### **Practical Validation of Analytical Methods**

- Specificity: impact of impurities
- Linearity and range
- Accuracy and Precision
- Quantitation limit
- Detection limit
- Robustness and system suitability
- Robustness and sample preparation

#### Statistical Aspects of Analytical Methods Validation

- The use (and misuse?) of statistics to support validation data
- Basic theory of the common statistical techniques
- Merits, pitfalls and underlying assumptions of particular tests
- The meaning behind
- Standard deviation F-test t-test

- ANOVA Correlation Coefficient
- Linear regression
- Exploration of more sophisticated statistical techniques such as interval hypothesis testing and experimental design

#### **Documentation of Analytical Validation**

- Validation SOPs
- Validation protocol/plan
- Validation report
- Transfer protocol/report
- Validation documentation for registration
- Validation software

#### Practical Determination of Validation Characteristics: Robustness

- Method development cycle
- Analytical process capability
- Selecting factors and levels
- HPLC experimental design example
- Impact on system suitability tests

#### **Transfer of Analytical Test Procedures**

- Statistical Tests
- Analytical significance vs statistical significance
- Acceptance criteria setting
- Interval hypotheses

#### **Error Budgets and Reportable Values**

- What is a reportable value?
- OOS, OOE & OOT
- Method performance and process capability
- ICH precision approach
- Measurement Uncertainty approach combined sources of variation

#### Speakers

#### **Dr Christopher Burgess**

#### Burgess Analytical Consultancy Ltd., UK

Dr Burgess is a Chartered Chemist and has more than 36 years experience in the pharmaceutical industry primarily with Glaxo in Quality Assurance and Analytical R&D. He is a "Qualified Person" and a member of the European QP Association advisory board. He has been appointed to the United States Pharmacopoeia's Council of Experts 2010 to 2015 and is a visiting professor of the University of Strathclyde's School of Pharmacy and Biomedical Sciences (SIPBS). In addition, he is the chairman of the ECA Analytical Quality Control Group and a member of the Executive committee of European Compliance Academy.

#### **Trevor Coomber**

#### Pharmaceutical Development Consultant, UK

Trevor Coomber is a Pharmaceutical Development Consultant with over 30 years experience in the industry. He spent six years as a Senior Project Team Leader and Analytical Science Manager in Pharmaceutical Development in Glaxo Wellcome. Prior to that, he was a Team Leader in the Analytical Development Laboratories in Wellcome.

#### **Workshop**s

During the course 5 workshops will be conducted in order to deepen the content of the lectures and to discuss practical aspects in detail. Workshops will be offered on the following topics:

#### **Analytical Instrument Qualification**

The participants will outline requirements for the qualification steps for a HPLC system.

#### Validation Plan

The participants will work on testing schedules for the relevant validation parameters.

#### Method Transfer

The participants will discuss practical details of an Analytical Methods Transfer.

#### Validation documents critique

The participants will work, in detail, on a typical case study proposing a suitable program of work for a validation dossier.

## Qualification of a Reference Standard against USP & Ph.Eur Standards

Typical problems of in house reference standards qualification against different pharmacopoeia reference standards will be discussed

#### **Dr Xaver Schratt**

LAT GmbH Dr. Tittel, Graefelfing/Munich, Germany Dr Schratt studied Chemistry at the University of Bayreuth, where he specialized in HPLC and HPLC/MS. In 2005 he joined LAT and since 2006 he is head of department R & D 2. In charge of national and international pharmaceutical companies he manages all analytical aspects of projects from preclinical stage up to phase III and post market approval. As an expert for chromatography and mass spectrometry he mainly focuses on method development, validation and qualification of reference substances.

#### **Social Event**

On 24 April 2012, you are cordially invited to a social event. This is an excellent opportunity to share your experiences with colleagues from other companies in a relaxed atmosphere.

S.

**Reservation Form:** CONCEPT HEIDELBERG P.O. Box 10 17 64 69007 Heidelberg Germany

**Reservation Form:** + 49 6221 84 44 34

e-mail: (a) info@concept-heidelberg.de Internet: www.gmp-compliance.org

#### Date

Tuesday, 24 April 2012, 9.00 - 18.00 h (Registration and coffee 8.30 – 9.00 h) Wednesday, 25 April 2012, 8.30 - 18.15 h Thursday, 26 April 2012, 9.00 - 16.30 h

#### Venue

Crowne Plaza Heidelberg Kurfürstenanlage 1 69115 Heidelberg, Germany Phone +49(0)6221 9170 Fax +49(0)6221 21007

#### Fees

be confirmed)!

to inform us in writing. The cancellation

Terms of payment: Payable without deductions within 10 days after receipt of invoice. Important: This is a binding registration and above fees are due in case of cancellation or non-appearance. If you cannot take part, you have to inform us in writing. The cancellation

until 2 weeks prior to the conference 10 %, until 1 weeks prior to the conference 50 % within 1 week prior to the conference 100

. We a

ECA Members € 1,790.- per delegate plus VAT APIC Members € 1,890.- per delegate plus VAT (does not include ECA Membership) Non-ECA Members € 1,990.- per delegate plus VAT EU GMP Inspectorates € 995.- per delegate plus VAT The conference fee is payable in advance after receipt of invoice and includes conference documentation, dinner on the first day, lunch on both days and all refreshments. VAT is reclaimable.

#### Accommodation

CONCEPT HEIDELBERG has reserved a limited number of rooms in the conference hotel. You will receive a room reservation form when you have registered for the event. Please use this form for your room reservation or be sure to mention "ECA7182" to receive the specially negotiated rate (single room € 139,- per night, incl. breakfast) for the duration of your stay. Reservation should be made directly with the hotel not later than 26 March 2012. Early reservation is recommended.

#### Registration

Via the attached reservation form, by e-mail or by fax message. Or you register online at www.gmp-compliance. org.

#### **Conference language**

The official conference language will be English.

#### **Organisation and Contact**

CONCEPT HEIDELBERG P.O. Box 10 17 64 D-69007 Heidelberg, Germany Phone +49 (0) 62 21/84 44-0 Fax +49 (0) 62 21/84 44 34 E-mail: info@concept-heidelberg.de www.concept-heidelberg.de

#### For questions regarding content:

Dr Gerhard Becker (Operations Director) at +49-62 21 / 84 44 65, or per e-mail at becker@concept-heidelberg.de. For questions regarding reservation, hotel, organisation etc.: Ms Marion Weidemaier (Organisation Manager) at

+49-62 21 / 84 44 46, or per e-mail at weidemaier@concept-heidelberg.de.
